**Use of the Multi-purpose Hall**

**VERSION 1**

**Large-scale conferences and national conventions  5,000 seats**

- The multi-purpose hall is perfectly suited for large-scale national conferences, academic meetings, general assemblies, research symposiums, and lectures. In theatre-style, with a 36m × 6.4m × 1.2m stage, the hall can fit 5,000 people. With classroom-style seating, the hall seats 1,500.
- The hall is equipped with an induction loop broadcast system to assist visitors who are hard of hearing.

**VERSION 2**

**Concerts  4,000 seats**

- There is a 36m × 14m retractable stage with a maximum height of 1.8m. With this stage in place, the hall can seat 4,000 people.
- The audio system consists of two sets of retractable center speakers, three retractable and movable front speakers, and seven sets of fixed sub-speakers. The lighting system includes four retractable and movable light bridges, a cyclorama, and four wall outlet panels. The light control unit has 360 circuits, allowing for a wide variety of use.

**VERSION 3**

**Rock Festivals  4,000 seats**

- Unlike Versions 1 and 2, in this formation, the stage can be set in the center of the hall for an intimate audience experience during rock festivals and fashion shows.
- With a stage of 26m × 26m in the center, the hall seats 4,000 people.
- There are seven rooms which can be used as backstage dressing rooms.

**VERSION 4**

**Sports Events  4,000 seats**

- The seats can be arranged in bleacher pattern around the courts for watching sports.
- The 18m ceiling makes it possible to host professional-level tennis and volleyball tournaments. It is also possible to host professional sumo tournaments.
- Sports events are enhanced by the large-scale video screen in place.

**VERSION 5**

**Trade Fairs and Exhibitions  3,000 m**

- The entire 3000m² arena area can be used for trade fairs and exhibitions.
- The elastic polyurethane coated floor can withstand a maximum pressure of 5 tons per square meter (0.5 ton per square meter for the retractable stage).
- The north and south gates open to a width of 6.3m and a height of 4.5m for cargo loading and unloading. With some advance preparation, an 11 ton truck can directly enter the venue.
